HACKTOBERFEST HACKDAY 2026 · TRACK 1: BEST USE OF GEMMA 4

NOTICEMATE AI

PS 02 · ACCESSIBILITY ASSISTANT

Proposed prototype by a team of four beginner ECE students · Evidence-aware notice understanding

THE PROBLEM · PS 02 FOCUS

IMPORTANT INFORMATION SHOULD NOT BE HARD TO UNDERSTAND

THE NOTICE REALITY

College notifications, scholarship flyers,and public circulars hide deadlines and eligibility in dense text and poster graphics.

Language barriers and buried requirements cause missed opportunities.

THE AI SUMMARY RISK

Generictranslation omits actionablesteps, while standard AI summaries risk hallucinating dates, fees, or documents.

PS 02 demands strict grounding: never invent unstated details.

The core breakdown: Confusing notice → missed details → uncertainty about the next action.

THE CONCEPT · PROPOSED WEB APPLICATION

MEET NOTICEMATE AI: UNDERSTAND. VERIFY. ACT.

1. MULTI-MODAL NOTICE INPUT

Uploadaphoto, screenshotofa circular,orpasteplaincircular textdirectly into a responsive mobile-friendly interface.

2. STRUCTURED EVIDENCE EXTRACTION

Pullspurpose,eligibility,deadlines, documents,andcontactdetails with exact source text links, rendering in Hindi or English.

3. ACTION CHECKLIST & GAP DETECTION

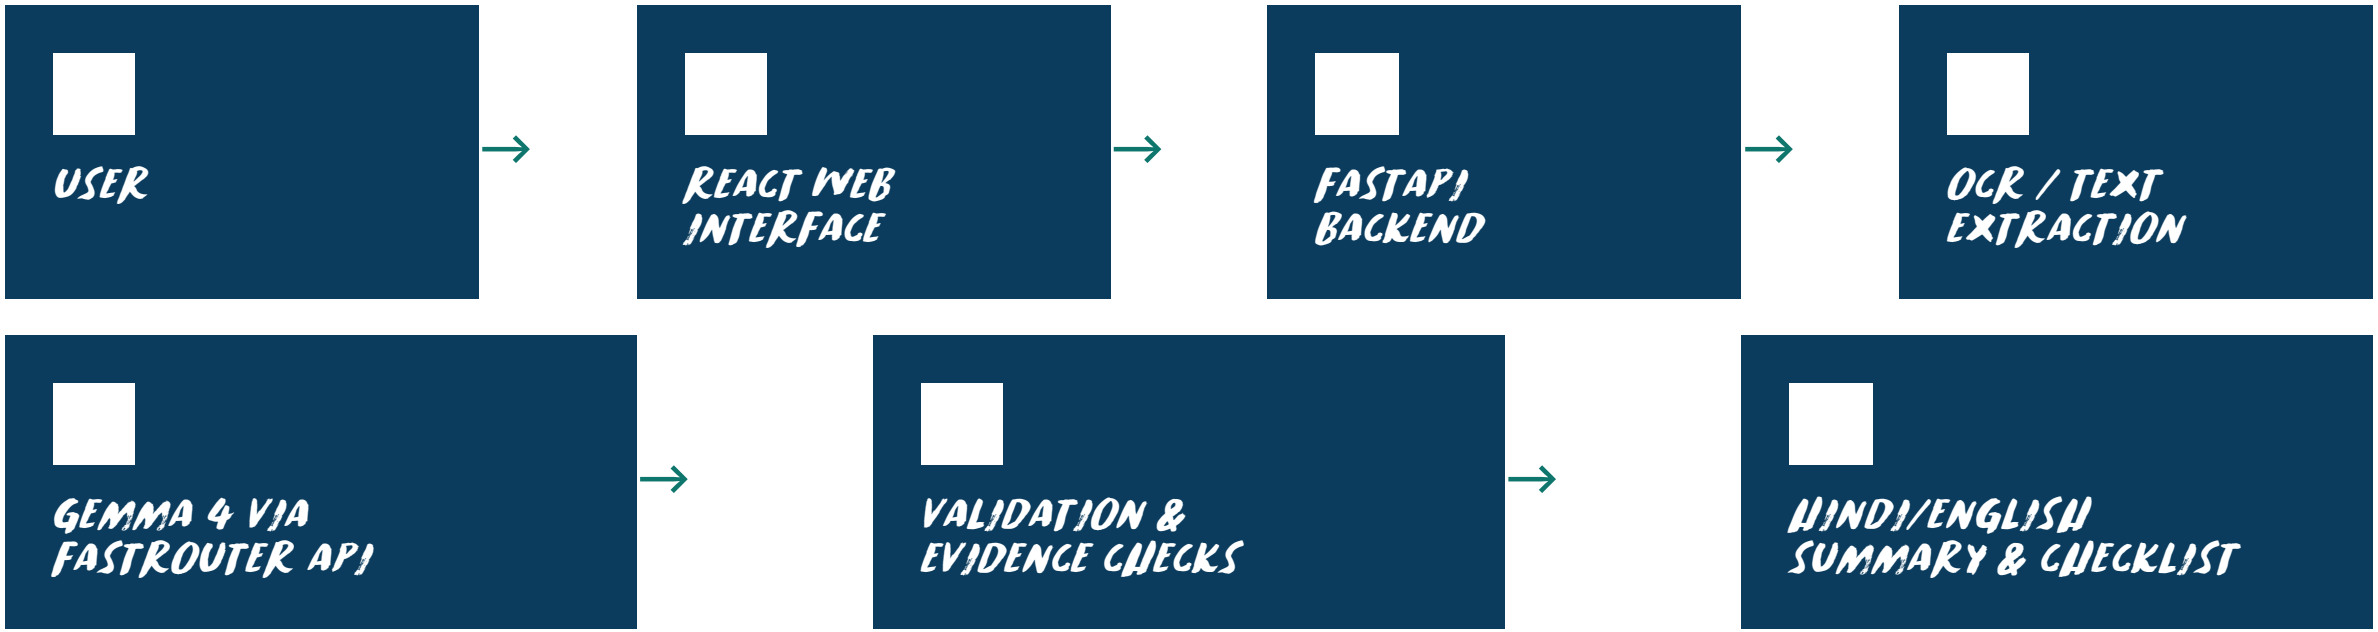

Transforms rulesintosequentialtasksandhighlightsmissingrequirements so users know exactly what to verify.

STRUCTURED INTERNAL FORMAT

Planned mobile-first web interface concept

POWERED BY GEMMA 4, DESIGNED FOR TRANSPARENCY

COMPONENT ROLES

Each modulehas oneplannedjob, from OCR to grounded output.

OPEN-SOURCE STRATEGY

Gemma 4 istheopen-weightlanguage model; FastRouter is an inference provider, not open source.

SECURITY

Planned design:API keys stay server-side and the validation layer keeps outputs grounded in evidence.

Proposed architecture: FastRouter is our planned OpenAI-compatible inference gateway; all modules represent planned prototype components.

END-TO-END WALKTHROUGH · SYNTHETIC SCENARIO

FROM NOTICE TO ACTION: A REALISTIC PLANNED WORKFLOW

SAMPLE INPUT NOTICE

> "Applications are invited from eligible second-year students. Submit the application with your college ID and income certificate by 30 November 2026. Contact the Student Welfare Office for details."

EXTRACTED FIELDS

Deadline: 30 Nov 2026
Eligibility: 2nd-year students
Documents: College ID, income certificate

BILINGUAL OUTPUT & CHECKLIST

ENGLISH CHECKLIST

- Confirm 2nd-year standing
- Collect college ID & income cert
- Visit Student Welfare Office

ह द चेक लस्ट

- तीय वष पात्रता जांच
- आईडी व आय प्रमाण पत्र जुटाएं
- कल्याण कायाल य से संपक कर

Flagged missing: Minimum marks cutoff, income threshold, and submission method not specified.

01

1. INPUT

Upload photo or paste text

02

2. EXTRACT

Text extraction & OCR

03

3. INTERPRET

Gemma 4 structured output

04

4. VALIDATE

Grounding & gap check

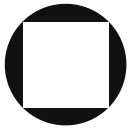

05

5. ACT

Bilingual tasks & Q&A

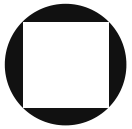

IMPACT & ROADMAP · HACKATHON DELIVERY

MORE THAN TRANSLATION: TURNING INFORMATION INTO ACTION

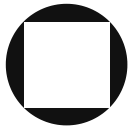

ACCESSIBILITY

HindiandEnglishplain summaries on mobile screens make campus opportunities accessible to all students.

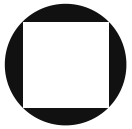

RELIABILITY

Strict evidence grounding flags missing requirements and refuses to invent dates, fees, or criteria.

ACTIONABILITY

Transforms passive text into sequential checklists with clear follow-up questions for unstated facts.

OPEN SOURCE

Public GitHubrepository with documentation, test suites of ambiguous notices, and honest limitation notes.

"NoticeMate AI does not merely tell users what a notice says. It helps them understand what it means, what remains unknown, and what they can do next."
